

Apex XTRA SELECT PLUS

The Apex Xtra Select Plus protection plan is simple to understand, affordable and effective. This strong component protection covers the things that keep a vehicle running smoothly and passengers resting comfortably. Coverage components include:

ENGINE: Crankshaft and bearings; connecting rods and bearings; thrust bearings and shims; pistons and piston rings; wrist pins; timing gears; timing belt or chain; timing belt tensioner; crankshaft pulley; harmonic balancer; oil pump; oil pump pressure relief valve and spring; oil dipstick; camshaft and bearings; lifters; pushrods; rocker arms; rocker arm shafts; cam followers; lash adjusters; intake and exhaust valves; valve springs; replaceable valve guides; balance shaft and bearings; water pump. Engine block and cylinder heads are only covered if damage resulted from the failure of an above listed covered part.

TURBOCHARGER/SUPERCHARGER (Factory installed): internally lubricated parts including bearings, turbine and turbine shaft. Turbocharger/supercharger housings are only covered if damaged as the result of the failure of an internally lubricated part.

DIESEL ENGINE: All of the above listed parts including diesel injection pump, injectors and vacuum pump.

ROTARY ENGINE: All of the above listed components including rotary chamber, rotor and main bearing.

AUTOMATIC TRANSMISSION/MANUAL TRANSMISSION: Torque converter; flexplate; front pump; planetary gear set; direct clutch; forward clutch; low and reverse clutch; clutch apply pistons; internal sealing rings; input and output shafts; roller clutches; bands; check balls; band apply servo; drums; center support; governor assembly; vacuum modulator; valve body; stator and stator shaft; bushings; pressure regulator valve and bearings. Transmission case is covered if damage resulted from the failure of an above listed covered component. For manual transmission: internal gears; shafts; bearings; bushings; input and output shafts; counter shaft; synchronizers and sleeves; detent balls; thrust washers; shift forks; levers; collars and springs. Transmission case is only covered if damaged as the result of the failure of an internally lubricated part.

TRANSFER CASE: Internal gears; mainshaft; countershaft; input and output shafts; bearings and spacers; shift forks; synchronizers and sleeves; springs and viscous coupling. Transfer case is covered if damage resulted from the failure of an above listed covered component.

DRIVE AXLE (FRONT OR REAR WHEEL DRIVE): Axle shafts; axle bearings; drive shafts; universal joints; constant velocity joints (unless damaged by the failure of a leaking CV boot or lack of lube); ring and

pinion gears; spider gears; carrier assembly; bearings and shims; center support bearing; locking hubs; four-wheel drive actuator.

ELECTRICAL: Alternator; voltage regulator; starter motor; starter solenoid and starter drive; turn signal switch and stop lamp switch engine control computer; power window motors; power seat motor; power seat switch; power door lock actuators; power door lock switches; windshield washer pump and switch; distributor; horn(s) and horn button; cruise control engagement switch; power mirror switch.

STEERING: Power steering pump; rack and pinion gear and steering gearbox.

FRONT AND REAR SUSPENSION: Upper and lower control arms; control arm shafts and bushings; upper and lower ball joints; king pins and wheel bearings.

AIR CONDITIONER: Air conditioner compressor; clutch and pulley; evaporator and condenser. Accumulator/drier and orifice tubes are only covered in connection with replacement of an above listed component and only if they have failed.

BRAKES: Master cylinder; wheel cylinders; disc brake calipers; vacuum assist booster; proportioning valve; hydraulic lines and fittings.

FUEL/COOLING: Electric and mechanical fuel pumps; fuel pressure regulator; fuel tank sending unit; metal fuel lines and fuel tank. Electric fan motor and fan clutch and heater control valve.

SEALS & GASKETS: For all components above, the following coverage applies: seals and gaskets of covered components designed to prevent the loss of necessary coolants, lubricants and fluids. Minor loss of fluid or seepage is considered normal and is not considered a mechanical breakdown and is not eligible for coverage.
